 OSSTELL
Beacon

Go from Good to Great

Intuitive | Easy-to use | Hassle-Free

The Osstell Beacon tells you when an implant is ready for loading in a matter of seconds.

Manage patients with **risk factors**

Avoid unnecessarily long **treatment times**

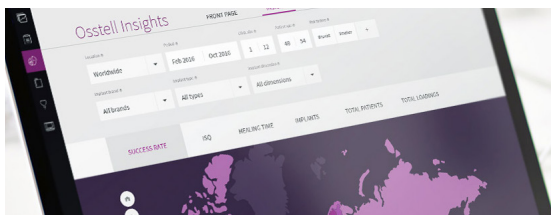

Achieve more **predictable outcomes**

The ISQ Scale

The Osstell Beacon uses proprietary and evidenced-based RFA technology, based on more than **900 scientific studies**. Visit osstell.com/clinical-guidelines to learn more.

The Osstell Beacon also gives you **free access** to OsstellConnect, where you can analyze your data, keep track of healing times and success rates over time, and compare your clinic with data averages from other Osstell users all over the world. **Simply a tool to help you excel.**
